WORK EXPERIENCE

Full-Stack Engineer, Inhance Digital | CA   October 2020 – November 2023
- Developed and designed a First Responder application, streamlining the triage process for emergency responders and reducing manual triaging by 30%. Additionally, an admin dashboard panel using Vue.js to provide centralized management and oversight of the application.
- Spearheaded the development of a CMS, utilizing Vuejs, Nuxt, MongoDB, and Firebase Functions, achieving a 32% reduction in media asset management overhead and a 60% improvement in application loading speed.
- Authored technical documentation and proof of concepts to effectively communicate product requirements and features to stakeholders.
- Architected multiple virtual showcasing events, utilizing Webpack, Bootstrap, JavaScript, and jQuery, while effectively managing and collaborating with cross-functional teams.

Web Developer, Creating Margin | ID   December 2019 – April 2020
- Revamped the company's website, ensuring a modern, user-friendly interface and improved website performance.
- Developed proof-of-concept prototypes that showcased innovative features and functionalities, contributing to the company's client acquisition and revenue growth.

Full Stack Developer, Pantsuit Professionals | NYC   March 2018 – November 2018
- Developed a comprehensive product roadmap outlining the features and functionalities of the job board and e-commerce platform.
- Led the design and development of the job board and e-commerce platform, ensuring a seamless user experience and integration with Mailchimp for newsletters and payment gateways APIs.
- Implemented performance optimization strategies that resulted in a 30% reduction in load times and a 20% increase in website traffic.

Software Developer, The Peach Studio | India   June 2016 – July 2017
- Executed the design and implementation of new website features, encompassing login APIs and user authentication systems.
- Gathered user feedback and analyzed website traffic data to identify areas for improvement and prioritize feature development.
- Implemented design changes and performance optimizations that resulted in a 60% increase in website traffic.

EDUCATION

Master of Science in Computer Science, New York Institute of Technology   **New York, New York,** May 2019
